Getting started

The first time you open Pizzagest Delivery, the app asks for the **QR code** the store has given you.

Tap **SCAN QR**.

pizzagest
SCAN QR

Point the phone's camera at the QR code.

If the code is correct

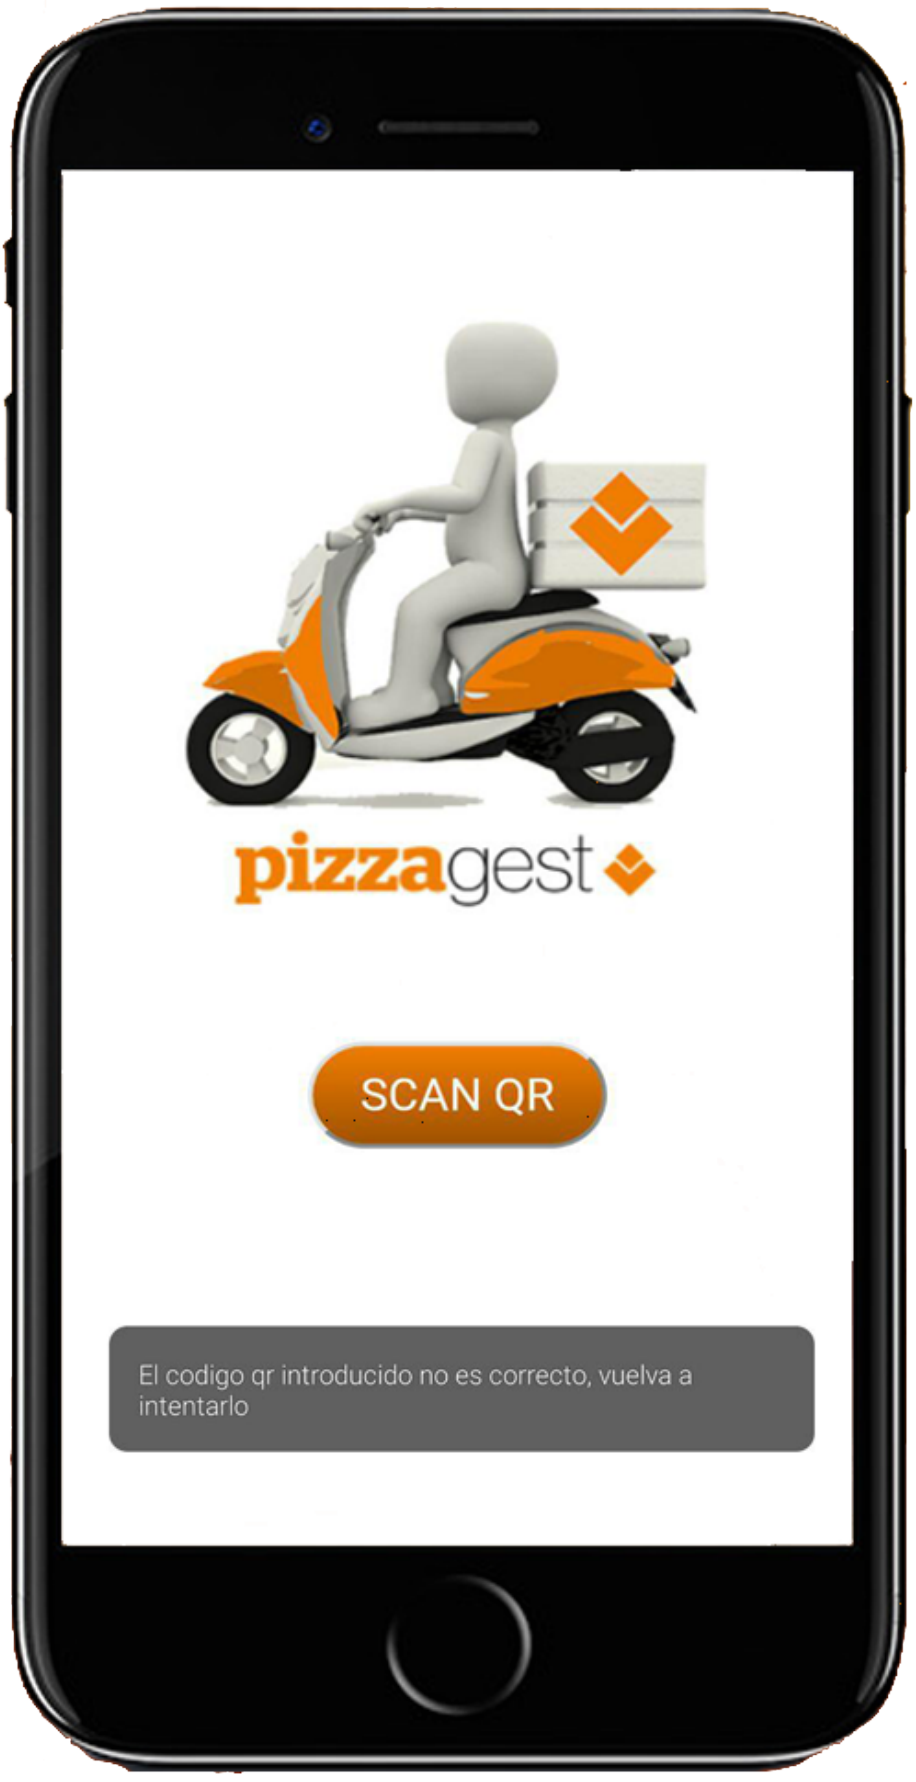

The app moves on to the next screen, which has two options:

- The **QR code** in the top right corner: tap it to scan a different code.
- **Login**, at the bottom: opens the screen where you sign in (see Login).

Login

If the code is not correct

The app goes back to the start screen and shows a message saying that the code is not correct and asking you to try again.

pizzagest
SCAN QR
El codigo qr introducido no es correcto, vuelva a intentarlo
