

Applicable Promotions

Once we have clicked on **Charge** through the **Place an Order** screen or the **Orders** screen, the following screen will appear:

The screenshot shows a software interface titled "Applicable promotions". It is divided into several sections:

- Total amount:** A yellow box displaying "\$ 73.80".
- Savings:** A yellow box displaying "\$ 5.28".
- Applied promotions:** A yellow box containing the text "Mail- Buy 1 bowl & get 50 OFF".
- Applicable promotions ordering more items:** A yellow box containing a list of items and their associated discounts:
 - \$ 5.27 Mail- Buy 1 bowl & get 50 OFF
 - \$ 2.23 Mail -Combo for \$22
 - \$ 6.34 20% off first reporder
- Right sidebar:** A vertical column of buttons with icons:
 - Charge:** A button with a downward arrow and a coin icon.
 - Choose promotion:** A button with a gear and a percentage icon.
 - Restricted promotion:** A button with a gear, a percentage icon, and a red lock icon.
 - Voucher:** A button with a percentage icon inside a dashed box.
 - Promo Code:** A button with a gear, a percentage icon, and a green plus icon.
 - Discount:** A button with a star icon.
 - Split check:** A button with a calculator icon.
 - Cancel:** A button with a red 'X' icon.

At first sight, we can see the **Total amount** that is going to be charged to the customer, the **Savings** in case that some **Promotion** is being applied, the **Applied Promotions** and the **Applicable promotions in case that ordering more items**.

In the right part, we have some buttons which allow us to execute different functions:

Charge or End: It will allow us to charge the order through the **Charge Order** screen. If it is a Delivery or Pick-up order, this option will appear with the name **End** and we will charge the order through the **Delivery Order Total** screen. Besides, if it is a Delivery order and we have set a minimum order amount from the **Add/Modify Zones** screen, a message will appear in case that the order does not reach the minimum required.

Choose promotion: If we click on this button, the following screen will appear:

The screenshot shows a software interface titled "Applicable promotions". It contains two main sections: "Applicable promotions" and "Applied promotions".

- Applicable promotions:** A list box containing "20% off first reporder". To its right are three buttons: an up arrow, a plus sign, and a down arrow.
- Applied promotions:** A list box containing "Mail- Buy 1 bowl & get 50 OFF". To its right are three buttons: an up arrow, a minus sign, and a down arrow.
- Right-side controls:** A vertical stack of buttons: "Ok" (with a checkmark icon), "Recalculate" (with a circular arrow icon), and "Cancel" (with an 'X' icon).

All the **Promotions** that can be applied will appear here. We will choose the ones that the customer wish, selecting the promotion and pressing the + button, and we can remove them with the button -

We have to take into consideration that the promotions will be applied automatically if we do not have activated in the **Promotion**, the option "**Promotion must be applied manually**", in the **Options and filters** tab through the **Add/Modify Promotions** screen.

Besides, we can also click on the **Recalculate** button, which will calculate the lowest possible price of the order for the customer, applying all possible promotions.

Restricted promotion: Depending on the required access level for applying promotions that we have configured in the **Add/Modify Promotions** screen, each employee will see the promotions that can be applied. In case that you want to apply a promotion that needs a higher level of access, you must identify yourself at the system to be able to apply it.

Voucher: If the customer has a voucher, we will write down the voucher code and the discount will be applied.

Promo Code: If we do not see a promotion that we wish to apply and we know the promotion ID, we can search for it through the Promo ID and apply it.

Discount: In case we have the required **Access Level Definition** to the system, we can apply a **Discount** to the total amount of the order, writing down the reference for the discount and the

amount of the discount in cash or as a percentage.

Split check: It allows us to charge the order separately, choosing the items on different tickets through the **Split order** screen.

Cancel: It allow us to exit of the screen without making any changes.
