

Choose Location

If we click on the **Add** button through the **Locations for Items** screen, a window like the one we can see below will appear:

The image shows a software dialog box titled "Location data". It contains a text prompt "Choose location for inventory item" followed by a yellow drop-down menu. To the right of the menu are two buttons: "Save" (with a floppy disk icon) and "Cancel" (with a red "X" icon).

We can choose a location where the inventory item is stored from the drop-down that will be configured through the **Inventory Items Location** screen.
