Jobs Legend

The **legend** lets you see which job each of the colours used in the schedules corresponds to.

How to get here: by clicking the colour wheel at the top right of the Schedule management screen, on the **THEORETICAL Schedule tab** or the **REAL Schedule tab**.

Options

As well as checking the colours, you can choose which jobs the schedules are shown for:

- **Show ALL**: if you tick it, the schedules for all the jobs are shown.
- Otherwise, only those of the jobs you select are shown.

> The colours of each job are selected on the Add/Modify Jobs screen.
