Production Recipe

On this screen you set which inventory item with a recipe you are going to produce, in what quantity and with which batch.

How to get here: Add or **Modify** option on the Production Order screen.

Inventory items that appear

You see all the inventory items you added from the Add/Modify Inventory Items screen **with a Recipe with production and stock**.

Production details

- **Quantity**: the quantity of inventory items to produce, in production units.
- **Batch**: enter the batch.
- **Manufacturing date**: it is added automatically. It is today's date.
- **Expiry date**: it is added automatically. It depends on how you configured the expiry days and the shelf life days on the Add/Modify Inventory Items screen.

Buttons

- **Ok**: click it once you have finished configuring the production recipe.
- **Cancel**: closes the screen without making any changes.
